Selectmen's Report for 1917

In submitting our report for the year just closed, we are unabashed in presenting the figures which represent one of the most expensive in the history of the town. Our readers have only to recur to their own personal expenses in order to show the comparative differences between this and former years when peace and plenty reigned in our broad land. The same ratio of increase in cost of maintenance will exist between personal affairs and affairs of the town, only in the latter's case the costs have been enhanced because of a conspiracy of the weather and the elements.

While we believe our fair-minded fellow citizens will see at a glance the consistency of our statement, we invite all to make a most critical study of the town report.

However, before passing on to the items of the town's accounts, we wish to call attention to some of the items of expense, which under ordinary circumstances would not arise, but through the tricks of fate we have been obliged to cope with.

First—It will be remembered that all the heavy snow storms of 1917 came after February 15th, thus leaving the greater part of the expenses for breaking roads to be paid this year. The storms began early this winter and have come often, making a big additional expense for the year which amounts to \$1,649.94.

Second—Owing to the condition of roads and bridges in outside districts, it has been necessary to expend more in these improvements. This work has cost \$3,175.60.

Third—The fact that we purchased a small grader, which should have been delivered in May, and did not arrive until Oc-

tober, shows only the expense of purchasing the machine, \$175.00. Had it been delivered on time it would have saved more than the purchase price by reducing the cost of repairing highways. We also have purchased 1,000 feet of bridge plank for the coming year, for which we paid \$284.67.

Fourth—Main street, to say the least, was in a dangerous condition. We decided that the best policy was to fix it permanently. Consequently, we had the street leveled and recovered, at a cost of \$1,500, for which there was no appropriation.

Fifth—We were unable to install a new boiler at the Opera House, owing to the increase in price. However, we decided to make repairs which were much needed. The revenue derived from renting the Opera House is decreasing each year, owing to other attractions. We have heated and lighted the house fourteen nights free, making no charge for benefits given for war purposes.

Sixth—It is now generally understood that the law enacted at the last session of the legislature, requiring all towns whose sinking funds were not adequate to secure the outstanding indebtedness to cancel the same on or before January 1, 1918, and issue bonds payable serially to make reimbursement, applies to our local condition, the securities in our sinking fund having depreciated owing to the present condition of the bond market, so that if they were disposed of now it would mean a loss to the town of \$3,200. The ground has been gone over very thoroughly both by publicity and at the special town meeting. Inasmuch as the special meeting was of no avail in getting a sufficient number of votes to legalize a new issue of bonds, it has been decided to call upon the holders of the old bonds to hold these securities until after the coming March meeting, at which time the voters will be called upon to legalize by vote a new issue of bonds. The good policy of the method we have outlined becomes apparent when the fact

is considered that by keeping our securities, half of which are paying $4\frac{1}{2}\%$, they will pay the interest on the new issue of bonds and redeem them as fast as they mature, all but \$2,000.00. In this way the town practically realizes 100 cents on the dollar without extra cost to the taxpayers. If the securities were to be sold to meet the requirements of the law, the town would lose \$3,200, costing the taxpayers \$2.60 on a \$1,000 this year.

Knowing that we have given the taxpayers our best efforts and have endeavored to exercise a conservative judgment, consistent with the unusual conditions, we submit, herewith, the Farmington Town Report for the year 1917.
